SKILLS

- Python
- JavaScript
- MERN stack
- Django
- Next.js
- HTML & CSS
- GraphQL
- PostgreSQL

EDUCATION

SECONDARY SCHOOL

S.C.R Sr. Sec. School

2014 - 2018

BACHELOR OF COMPUTER APPLICATION

Guru Jambheshwar University

2018 - 2021

PROFILE

I am self taught programmer. I have 1 year working experience on MERN stack and Next.js using GraphQL and PostgreSQL as a database. You can see my work here https://github.com/recosank . I have also work on Django and django-rest-framework for rest-api's

PROJECTS

- IMDB its an imdb-clone where you can rate movies watch trailers and see every movie related information it made with MERN stack and i use JWT for auth.
- Blinkit clone an E-commerce website it's an OTP based login/signin system made with Next.js and mongodb as a database where you can order different items and save them in your cart as well.
- SnapTalk an instagram like app where you can share you moments follow each other like their post it made with Next.js and GraphQL to interact with PostgreSQL database
- TODO a rest-api in django-rest-framework where you can add task, delete them reset password via email OTP and email verification for login, user can login using gmail account using OAuth.
